MARCATO.COM.PL

WHAT OUR PACKAGING IS DISTINGUISHED BY?

ATTRACTIVE APPEARANCE

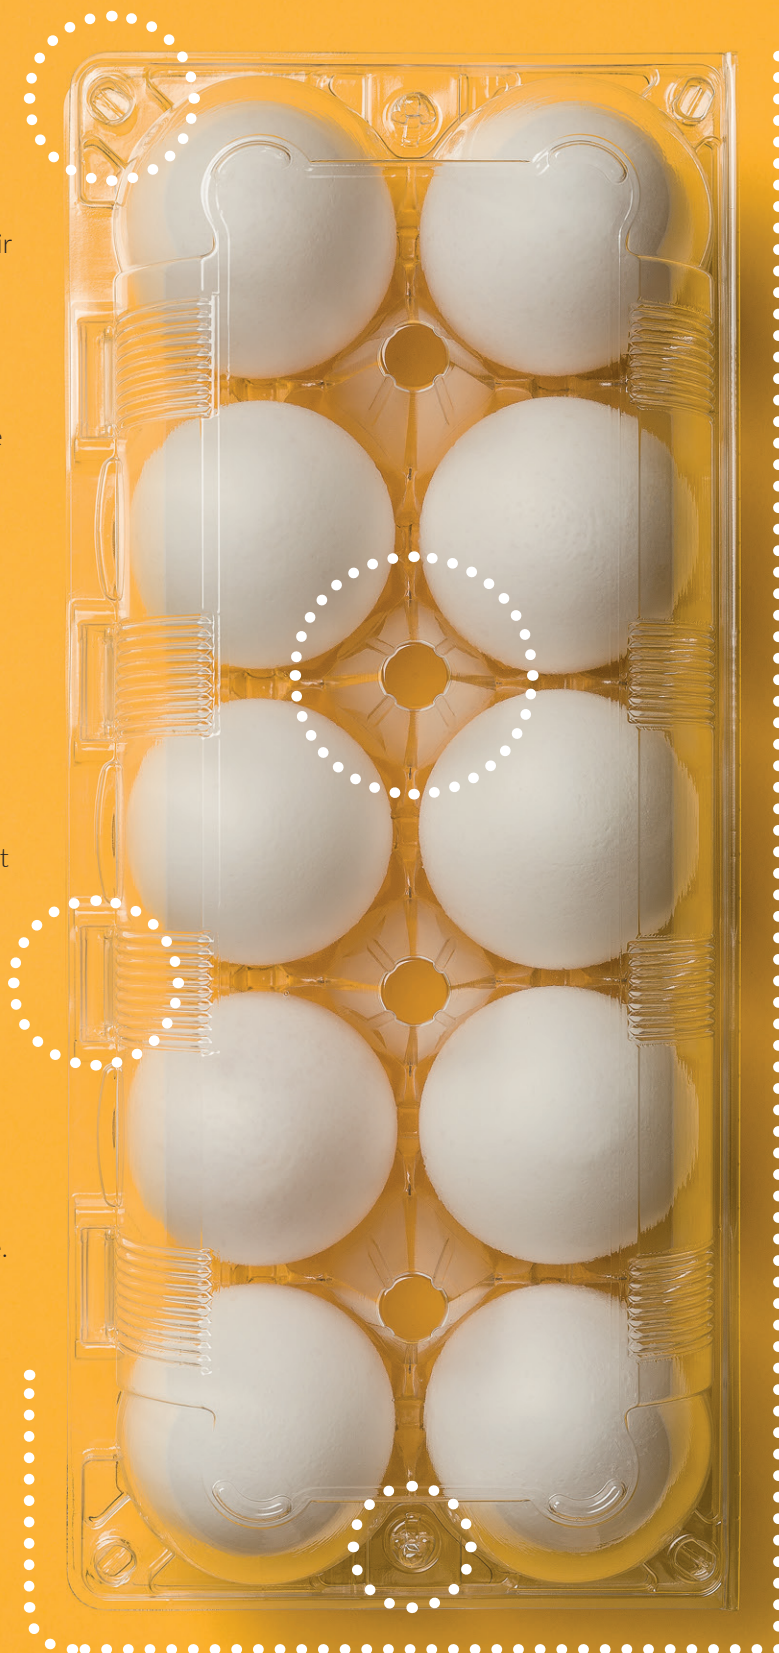

First of all, eggs packaging must ensure their safe storage but also present the product in an attractive way. Therefore, we attach great weight to the structure of packaging and its appearance, and for the production, we use top-quality materials, ensuring high translucency and the possibility to decorate them using both a label and multi-colour imprint.

THE SAFE CAST

Thanks to adjusted, stable cast of our packaging, even so, delicate products as eggs are well-secured - regardless of size or the number of eggs. Our packaging has a tested closing system, functioning without any problems, both at the stage of packing eggs by a producer and during the use by a consumer at home.

THE BEST MATERIALS

For the production of packaging, we use top-quality materials, which are capable of ensuring product safety and comfort of use. All materials used by us are ecological and may be recycled in 100%.

PACKAGING 10 TYPE A

.....

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 26,92 g

PACKAGING 4+6

.....

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling

THE WEIGHT OF THE PRODUCT: 31,20 g

PACKAGING 2x6 TYPE B

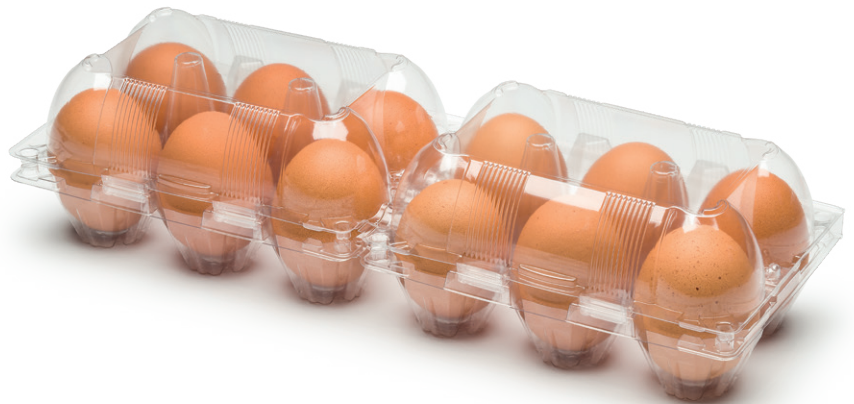

.....

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 34,17 g

PACKAGING 4x6

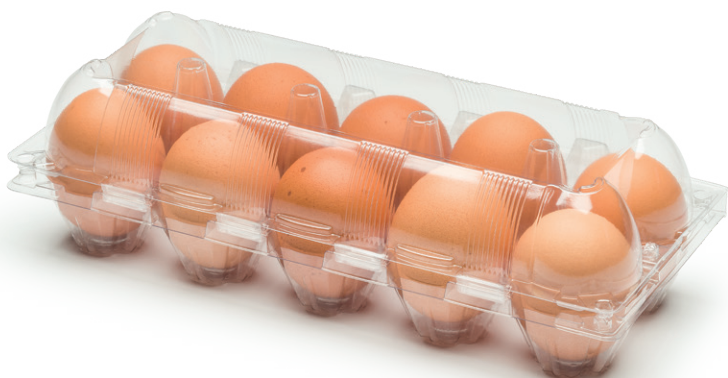

.....

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

THE WEIGHT OF THE PRODUCT: 66,71 g

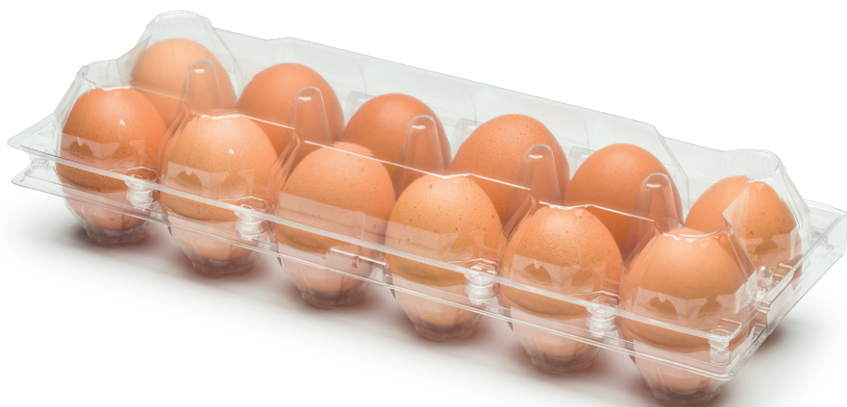

PACKAGING 10 TYPE B

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 28,38 g

PACKAGING 12

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 33,15 g

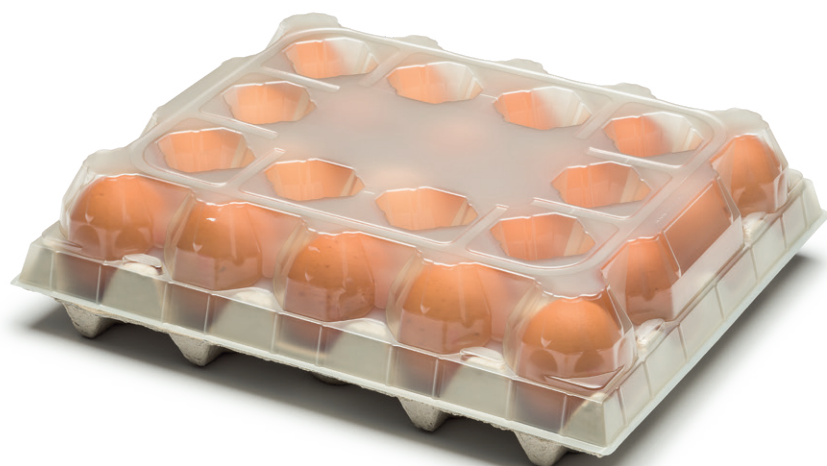

PACKAGING 15

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 42,07 g

LID 20

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

THE WEIGHT OF THE PRODUCT: 27,20 g

PACKAGING 10 XL

MATERIAL: PET, EKOPET

SIZE OF EGGS: XL

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 34,90 g

PACKAGING 2x6 TYPE A

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

PERSONALIZATION: Labelling, imprint

THE WEIGHT OF THE PRODUCT: 32,42 g

PACKAGING 18

MATERIAL: PET, EKOPET

SIZE OF EGGS: Quail

THE WEIGHT OF THE PRODUCT: 17,54 g

LID 30

MATERIAL: PET, EKOPET

SIZE OF EGGS: M, L

THE WEIGHT OF THE PRODUCT: 34,00 g

WHY ARE WE WORTH TRUSTING US?

WE CARE FOR THE BEST QUALITY

In order to obtain perfect, the flawless product we create prototypes, and they are subject to insightful laboratory tests. The standard in our work is maintaining the highest standards concerning production, OSH and hygiene: ISO 9001:2015, BRC IoP, HACCP, GHP and GMP.

WE INVEST IN THE DEVELOPMENT

Our aim is looking for new solutions, improving our work performance and thus enhancing the competitiveness of our Customers. The production of innovative, environmentally safe packaging, for the production of which even 100% recycled materials will be used, is one of the most crucial elements of our development strategy. Products will be distinguished, among others, by: high temperature-resistance or reduced weight (foamed packaging).

WE'VE GOT EVERYTHING UNDER CONTROL

The creation of packaging requires scrupulousness at every stage of production. Therefore, at Marcato we watch over the entire process by ourselves: starting from designing, through doing the casts, the production of foil, thermo-formation, ending with decoration - imprint or labelling.

WE LOOK AFTER THE ENVIRONMENT

We are aware of the responsibility for the environment in which we live. Therefore, our aim is 100% use of all raw materials used during production. It is possible thanks to effective processes of separation, recycling and granulation.
